EDUCATION

Syracuse University, College of Eng & Computer Science Syracuse, NY	Aug 2024 - May 2026
Master of Science, Computer Science	
• Coursework: Data Structures, Computer Architecture, Design and Analysis of Algorithms, Assured Programming with Formal Methods, Principles of Operating Systems, Social Media & Data Mining	
University of Mumbai, Vidyalankar Institute of Technology Mumbai, Maharashtra	Jun 2020 - May 2024
Bachelor of Science, Electronics & Telecommunication	
Minors in AI & ML	
• Coursework: Cloud Computing & Security, Web Design, Control Systems, Database Management Systems, Natural Language Processing, Computer Vision, Probability & Statistics, Deep Learning, Data Science & Analytics	

WORK EXPERIENCE

Syracuse University	Dec 2025 - Present
Administrative Assistant	Syracuse, NY
• Apply relational data modeling and normalization principles to maintain structured, query-efficient exam and scheduling datasets.	
• Execute SQL-based data validation checks and aggregations to verify record consistency, detect anomalies, and support operational reporting.	
• Use Python-based scripts and spreadsheet logic to automate data cleanup, file validation, and batch processing of exam-related records.	
• Generate operational summaries and dashboards using Excel and BI tools to monitor workflow status, data quality, and throughput metrics.	
Syracuse University	Sep 2025 - Dec 2025
Data Science Researcher	Syracuse, NY
• Lead data processing and modeling workflows for large-scale social media datasets using Python, SQL, and Pandas to extract behavioral, linguistic, and engagement insights.	
• Oversee ETL workflow redesign to clean and structure 100K+ records, improving model accuracy and reducing preprocessing time by 30 percent.	
• Drive statistical analysis and machine learning experimentation including classification, clustering, and feature engineering to advance research on user interaction trends and content behavior.	
Syracuse University	May 2025 - Aug 2025
Graduate Research Assistant	Syracuse, NY
• Analyzed 500K+ MLIR log records to pinpoint performance bottlenecks and implemented an automated cleaning pipeline cutting debugging time by 30 percent.	
• Partnered with faculty and PhD teams to build dashboards visualizing runtime, memory usage, and scalability trends.	
• Coordinated with a cross-functional research group to document workflows and provide open-source MLIR updates adopted by 30+ collaborators.	

PROJECTS

Sales & Customer Insights Dashboard	Mar 2025 - Jun 2025
• Designed and deployed business intelligence dashboards using Streamlit and Power BI to analyze 100K+ revenue transactions and monthly sales trends.	
• Executed ETL processes using Python (Pandas) and SQL to clean, transform, and integrate Excel-based datasets for KPI reporting.	
• Developed and visualized key performance indicators including total revenue, average monthly revenue, and month-over-month growth to support data-driven decisions.	
Hospital Readmission Risk Predictor	Oct 2024 - Jan 2025
• Developed a machine learning-based predictive application using Python and Streamlit to assess 30-day hospital readmission risk across 50K+ patient records .	
• Implemented a Random Forest classifier using Scikit-learn , achieving an F1-score of 0.82 with class imbalance handling.	
• Performed data preprocessing and feature engineering using Pandas and NumPy on clinical, demographic, and utilization datasets.	

SKILLS

- **Programming & Data Analysis:** Python, R, SQL (PostgreSQL, MySQL, Oracle), Pandas, NumPy, Scikit-learn, TensorFlow, PyTorch, SAS, Data Cleaning, Data Wrangling, Exploratory Data Analysis (EDA), Statistical Analysis.
- **Data Visualization, ML & NLP:** Power BI, Tableau, Excel, Matplotlib, Seaborn, ML Modeling (Regression, Classification, Clustering), Feature Engineering, Model Evaluation (F1, ROC-AUC), TF-IDF, Text Preprocessing, Model Validation, Time-Series Trend Analysis, Hyperparameter Tuning.
- **Data Engineering, Databases & Cloud:** ETL/ELT Pipelines, MongoDB, AWS (EC2, S3, RDS), Docker, Git, GitHub Actions, CI/CD, REST APIs, Jira, Confluence, Streamlit, SQL Query Optimization, Model Deployment, Reproducible Data Pipelines.

CERTIFICATION

Google Data Analytics Professional Certificate
